

# CRAPE MYRTLE

## 紫薇

Crape Myrtle is a popular ornamental tree due to its long flowering period of 60-120 days. Its flower colors range from white, pink and rose, to red and violet. Crape Myrtle is a popular ornamental tree due to its long flowering period of 60-120 days. Its flower colors range from white, pink and rose, to red and violet.

**Botanical Name:**

*Lagerstroemia indica*

**Family | Genus:**

*Lythraceae |*

*Lagerstroemia*

**Location in TSM:**

Tsz Shan Avenue

“Welcoming the autumn dew, a single new branch blooms, not competing for the finest spring in the garden.”

「曉迎秋露一枝新，  
不佔園中最上春。」

Du Mu, “Common Crape Myrtle Flowers”

杜牧《紫薇花》
